

Main Branch Children's Programming

Welcome to the Hardin County Public Library's Children's Department! We have several class options that meet the needs of our youngest patrons. We are committed to promoting early literacy and kindergarten readiness. We are also here to support your school age children's needs through age appropriate programming, book recommendations, and school research assistance. Registration is not required for classes and events, unless specifically noted. Class times and dates can be found on our Facebook page and on calendars that are available for pickup in the Children's Department. Class selections and times are occasionally changed throughout the year to better meet the needs of our patrons. Therefore, please feel free to call the Children's Department for updates. Reduced programming is scheduled during school breaks (Hardin County School System). Classes may be cancelled in case of bad weather.

After School Zone

Kids choose the topics, play games, and make crafts. We often focus on a theme and matching craft over several meetings. We may choose themed books to check out for the next week, but assigned reading is NOT mandatory. Sample themes include sharks, knights, mermaids, etc. (Grades K-5th grade)

Stories and Tails

This program allows children and families to read aloud to a therapy dog, which can improve reading and communication skills. Permission slips are provided for guardians to sign before children can participate.

Legos @ the Library

Large and small Legos are provided, along with an optional theme. After the masterpieces are created, they are put on display in the main part of the library!
