# Summer Reading Program 2016

On your mark, get set, read!  
Wellness, Fitness, and Sports

## **Why should we participate in Summer Reading?**

The benefits to readers in a summer reading program include:

- Encouraging reading to become a life-long habit
- reluctant readers can be drawn in by the activities
- reading over the summer helps prevent *summer slide*\*

**\*Most students lose about two months of grade level equivalency in mathematical skills over the summer months. Many students also lose more than two months in reading skills.**

## **SRP Notes:**

- Registration is **NOT** required, unless noted otherwise.
- You can pick & choose classes & times, but stick with your child's age group.
- A finalized schedule will be released in May.
- Chooses classes for the grade your child just *finished*.
- If class times do not work for your schedule your child *may* be able to attend a class for a different age group.
- All children & families are welcome to attend special programming.
